

CELEBRATE EARTH DAY IN EDEN MILLS!

Next **Saturday, April 21**, 2018 Eden Mills celebrates its 10th Annual Earth Day. Always a harbinger of spring, Earth Day puts us all back in touch with nature. We lift our eyes to the village birds and kneel to marvel at the miracle of spring wildflowers. We plant our hopes for the future with the small new trees we have chosen.

7:30 AM Leap out of bed next Saturday morning to join **Brian Husband** at the Community Hall for the morning bird hike. Brian is a Professor in the U. of G. Department of Integrative Biology and we are lucky that there are no limits to his enthusiasm for our Eramosa Valley habitat. Earth Day sightings have usually numbered more than 30 species. Listen, look and learn!

**Meet at the Community Hall and bring binoculars if you have them.*

9:00 AM to Noon – **Tree Planting** -- Pick up your trees at Barb and Joe's across from the Park.

1:30 PM – **Spring Nature and Wildflower Hike**

Join the tireless **Brian Husband** again for this hike guaranteed to be full of spring surprises. Don't miss the opportunity to enjoy the Eden Mills natural world with an unmatched guide.

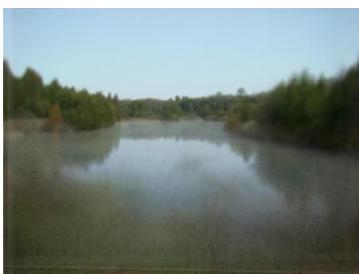

**Meet at Memorial Park by the playground.*

**You might want rubber boots.*

**Don't forget your camera!*

7:00 PM – **Honouring Water: Film and Celebration**

We'll gather in the evening at the Hall to honour water through the screening of ***The Sacred Relationship***. This NFB documentary directed by Greg Miller is part of the AAIBZINWASHI (WIDE AWAKE) series, the stories of our land, told by First Nations, Métis and Inuit filmmakers from every region of the country. ***The Sacred Relationship*** explores how reconciling the relationship between Aboriginal people and the rest of Canada can lead to healthier water.

Before the screening you'll be able to marvel at and meditate on village artist **Art Lucs'** extraordinary **2500 Mornings**, a video montage of photos of the Camp Edgewood pond shot from the same angle every morning over seasons and years – a pond of thousands of moods and colours reminding us that we live every day in a vibrant natural world with millions of stories to tell. Members of the **Turtle Island Drumming Circle** will underscore the images, accompanying a recording of the haunting ***Nibi***

(Water) Song by Beatrice Menase Kwe Jackson, Migizi Clan.

AND there will be cake! 10 years and more than **8000** trees. Well worth celebrating! See you there!!

See posters for more details on next page.
