

GOING CARBON NEUTRAL

Charles Simon: Re: Hall Energy Audit by Richard Lay & Co.

Attached is a summary of hydro usage for the EMCC fiscal years 2005, 2006 & 2007; I don't know just what aspects of our usage Richard is primarily concerned with, so the summary shows all the components which make up our monthly bill.

The propane consumption is done on the same basis - fiscal years.

|      |         |                    |  |                          |
|------|---------|--------------------|--|--------------------------|
| 2005 | \$5582. | fuel 7698.5 litres | (an estimated 500-750 litres was lost due to a leak in the tank) | Nov 1 - Oct 31 2004 2005 |
|      |         |                    | The \$ amt. includes \$750 for repairs & tank rent.              |                          |
| 2006 | \$3920  | fuel 5623.4 litres | This \$ amt. includes \$400 for tank rent.                       |                          |
| 2007 | \$3393  | fuel 5362.1 litres | This \$ amt includes \$400 for tank rent.                        |                          |

If you (Richard) need to go back further than these 3 years I do, as Dan says, have the records and can dig the info up; however, I feel that only the consumption will be of any significance as prices have changed considerably.

Neville Martyn - I'm not au fait enough with internet technologies to E-Mail this, so you will have to do with hand delivery !!
